## Calculate the postage

Name: \_\_\_\_\_

Go to the Australia Post website, [auspost.com.au](http://auspost.com.au) and use the “Calculate postage” tool to answer the following questions:

What is the postage for the following (sent within Australia):

1. A standard letter?

\_\_\_\_\_

2. A small letter in a DL-sized envelope less than 5mm thick and weighing less than 20g, sent using the standard service?

\_\_\_\_\_

3. An express post, C4 envelope, 10mm thick and weighing 25g?

\_\_\_\_\_

4. A large letter, C6 envelope that weighs 55g and is 20mm thick, sent using the standard service?

\_\_\_\_\_

5. A regular parcel (boxed) sent using the standard service from Adelaide (5000) to Hobart (7000) via registered post with the dimensions (40.0 x 20.0 x 18.0cm) and a weight of 225g?

\_\_\_\_\_

6. Using an item of your choice, calculate what it would cost to send from your town / city to another Australian capital city of your choice. You will need to weigh and measure your item first.
