

# Our Solar System

## Solutions

### Our Solar System – what do I know?

1. A star and all the objects that orbit it.
2. The sun.
3. In a galaxy called the Milky Way?
4. Approximately 4.6 billion years old.
5. Mercury                  Jupiter  
Venus                        Saturn  
Earth                         Uranus  
Mars                          Neptune
6. Asteroids, stars, dwarf planets, comets, meteoroids, moons.
7. Mercury, Venus, Earth and Mars because they have solid, rocky surfaces.
8. Uranus and Neptune.
